

# CICERO

## The “CodetheWall” wall painting action and SharedCode festival

by Sébastien Boussois et Liza Dignac

on behalf

for **CICERO** project (Counter-narrative communication  
campaign aimed at preventing radicalisation).

This project was funded by the European Union’s Internal Security Fund Police under **GA N°812613**.

# #CodeTheWall event - Molenbeek (15.07.2021)

- A wall to **immortalize** the Sharedcode campaign and CICERO project.
- A wall to be a place of memory, gathering, **social and cultural cohesion**.
- A wall located in the **centre of Molenbeek-Saint-Jean**, rich in social and cultural diversity and community network.
- A wall where **local associations** are settled (Move Asbl for inclusion, prevention and education; VIA for the reception of first generation immigrants; etc.).
- With the organisation of an all-day workshop with **#eyesoftheheart** initiative.

# #CodeTheWall event - Molenbeek (15.07.2021)

## The artist - Nikita Collienue

- An artist close to the **youth**, specialist of **urban murals** in Belgium and elsewhere.
- Use of painting spray for a curves lines design (**calligraphy**), symbol of sharing and diversity.

# Sharedcode Festival - Bordeaux (21.07.2021)

The first edition of this **European festival** is part of the fight against all forms of radicalisation, through the promotion of human values, artistic expression and the presentation of inspiring life stories; to say what brings us together and to live our common future.

The Sharedcode Festival will take place in (ZA Quai des Queyries, Port Bastide). **Bordeaux between 4pm and midnight, at the Guinguette Chez ALRIQ**

Throughout the festival there will be **workshops, animations, performances, live concerts, and the SharedCode campaign will be presented.**

The best moments of the day will be broadcasted on the social networks of Sharedcode and Guinguette Chez ALRIQ (Facebook, Instagram, Youtube, website).

# Sharedcode Festival - Bordeaux (21.07.2021)

The event will gather **local associations, representatives of the city** and members of **Darwin's initiative** (programme of urban hybridization combining economic activities with citizen initiatives and associations in the fields of culture, ecology and urban sports).

A **round-table** will be organised with local associations to stimulate discussions and enhance the **emergence and development of citizen alternatives**.

Our ambition is to ensure the **sustainability** of such a festival with the organisation of a **bigger and better event next year**, in Germany or Spain.

Counter-narrative communication campaign aimed at preventing radicalisation

# Thanks for your attention!
